The Senate President reappointed both Tom Neubauer and J.R. McDonald to new terms. The Senate President also appointed Senator Garret Richter and former Senator Mike Bennett to the Task Force. The House Speaker reappointed Brigadier General Chip Diehl, USAF (retired) and Representative Ritch Workman to new terms. Representative Ritch Workman served as the Chair from December 2014 through June 2015. Senator Garret Richter assumed the Chairmanship in July 2015. Tom Neubauer was selected to serve as the Vice Chair.

The FDSTF mission is to make recommendations to preserve and protect military installations, to support the state's position in research and development related to or arising out of military missions and contracting, and to improve the state's military-friendly environment for service members, military dependents, military retirees, and businesses that bring military and base-related jobs to the state.

The FDSTF replaced the Florida Council on Military Bases and Mission Support which was created under Florida Statute 288.984. The Council has been deleted from Florida Statute. The FDSTF received a FY 2011-2012 appropriation of \$5 million, a FY 2012 –13 appropriation of \$2 million, a FY 2013-2014 appropriation of \$4 million, a FY 2014-2015 appropriation of \$3.5 million, and a FY 2015-2016 appropriation of \$2 million to protect, preserve, promote and grow Florida military installations and missions. The Task Force held a total of 9 meetings and 1 conference call throughout the calendar year 2015.

The Task Force provides weekly email updates for its members. The Task Force developed an initial strategic plan to guide its actions in protecting Florida's military installations dated April 23, 2012. This plan was updated in October 2012, again in July 2013, and most recently in March 2015. The Task Force plans to update this strategic plan in 2016. The most recent version of the strategic plan is posted on the Task Force web site, and at Tab C.

Florida Defense Support Task Force web site has been operational since August 2012. It has been helpful in publicizing meeting times and locations. Additionally, this site displays the award of funding grants along with copies of agenda and minutes from Task Force meetings, budget information and weekly Task Force updates. The new address for the web site is: www.enterpriseflorida.com/fdstf

The Office of Program Policy Analysis and Government Accountability (OPPAGA) conducted a detailed review of state military and defense programs included the Military Base Protection Program (Including both Defense Reinvestment Grants and Defense Infrastructure Grants), the Florida Defense Alliance, and the Florida Defense Support Task Force for Fiscal Years 2011-2012, 2012-2013, and 2013-2014. The cutoff date for the review was June 30, 2014. OPPAGA found that grant recipients and other stakeholders were very satisfied with the grant programs' effectiveness in meeting installation needs. Additionally, OPPAGA concluded that Florida's military and defense support efforts exceed those of other states with a large military presence. See Tab I.

The Task Force published the 2015 Florida Defense Factbook in October 2015 based on the Economic Impact Analysis Study conducted by CareerSource Florida under the leadership of Dr. Rod Lewis. The factbook can be downloaded from the Task Force web site at:

<http://www.enterpriseflorida.com/fdstf/resources/>. A copy is enclosed at Tab J.

The Task Force published the 2015 Florida Military Friendly Guide in October 2015 with additions from the 2015 state legislative session. This guide contains a summary of the Florida laws that benefit active duty, National Guard and Reserve service members and their families. It has been distributed throughout the state and to the Florida Congressional delegation. The guide can be downloaded from the Task Force web site at: <http://www.enterpriseflorida.com/wp-content/uploads/Florida-Military-Friendly-Guide.pdf>. A copy is enclosed at Tab K.

State Legislative Issues

The 2015 Florida legislative session initiated several actions which affected the statutory mission of the Task Force. Below is a listing of budget issues and legislation initiated or supported by the Florida Defense Support Task Force that passed the Florida Legislature and was signed into law by Governor Scott:

Budget: Florida Defense Support Task Force Budget for FY 2015 - 2016 -- \$2,000,000.

Legislation:

HB 27 --Relating to Driver Licenses & Identification Cards

The bill provides for the Department of Highway Safety and Motor Vehicles (DHSMV) to accept a military personnel identification card as proof of a social security card number during the application process to acquire a driver license or identification card. The bill further authorizes DHSMV to replace the veteran designation "V" with the word "Veteran" exhibited on the driver license or identification card of a veteran who qualifies and chooses to have such designation. The replacement of the "V" with the word "Veteran" will apply upon implementation of new designs for the driver license and identification card by DHSMV. Effective Date: July 1, 2015

SB 184 -- Relating to Federal Write-in Absentee Ballot

Authorizes absent uniformed services voters and overseas voters to use the federal write-in absentee ballot in any state or local election; prohibiting the supervisor of elections from canvassing federal write-in absentee ballots from overseas voters in certain elections until 10 days after the date of the election. This allows absent uniformed services and overseas voters to use a FWAB as a "back-up" ballot for all federal, state, and local elections. The bill also delays the canvassing of a FWAB until 10 days after the presidential preference primary or general election. This will allow the voter's official absentee ballot to be canvassed (in lieu of a FWAB) if it is received during that 10-day window. Effective Date: July 1, 2015

HB 185 -- Relating to Public Records/Active Duty Servicemembers and Families

The bill provides a public records exemption for military servicemembers and veterans, and their family members. Specifically, the bill creates a public records exemption for the identification and location information of current or former active duty servicemembers of the United States (U.S.) Armed Forces, their reserve components, or the National Guard who served after September 11, 2001, and their spouses and dependents. In order for the exemption to apply, the current or former servicemember must submit to the custodial agency a written request and a written statement that reasonable efforts had been made to protect the identification and location information from being accessible through other means available to the public. Effective Date: Upon becoming law.

HB 277 -- Relating to Public Lodging Establishments

The bill provides that a public lodging establishment classified as a hotel, motel, or bed and breakfast inn is required to waive any minimum age policy it may have that restricts accommodations to individuals based on age for individuals who are currently on active duty as a member of the United States Armed Forces, the National Guard, Reserve Forces, or Coast Guard and who present a valid military identification card. Effective date: July 1, 2015

HB 361 -- Relating to Military Housing Ad Valorem Tax Exemptions

The bill recognizes in statute that leaseholds and improvements constructed and used to provide housing pursuant to the federal Military Housing Privatization Initiative (Housing Initiative) on land owned by the federal government are exempt from ad valorem taxation. Florida law provides an exemption from ad valorem taxation for property owned by the United States. This exemption specifically applies to leasehold interests in property owned by the United States government when the lessee serves or performs a governmental, municipal or public purpose or function. Federal law also recognizes the immunity of property of the United States from ad valorem taxation. Effective Date: July 1, 2015

SB 7028 -- Relating to Educational Opportunities for Veterans

This bill amends the Congressman C.W. “Bill” Young Veteran Tuition Waiver Program to allow additional persons to be eligible for the out-of-state tuition fee waiver currently afforded to honorably discharged veterans residing in Florida and enrolled in a state university, Florida College System institution, career center operated by a school district, or charter technical career center. The bill requires a state university, Florida College System institution, career center operated by a school district, or charter technical career center to waive out-of-state fees for any person who is receiving educational assistance through the U.S. Department of Veterans Affairs and who physically resides in Florida while enrolled in the institution. **This addition allows individuals, such as a spouse or child of a veteran or servicemember using GI Bill benefits, to qualify for in-state tuition rates.** Effective Date: Upon becoming a law

Defense Grants Budget:

Military Base Protection -- \$150,000.

Defense Infrastructure -- \$1,600,000.

Defense Reinvestment --- \$850,000.

FDSTF Community Grants -- Funding Application Process

The Task Force decided that within budget constraints, they may fund local initiatives that can be leveraged to promote, preserve, or enhance military missions and installations in Florida. The funding process will be a simplified one based on two criteria: The mission of the FDSTF as described in F.S. 288.987, and the FDSTF goals as stated in the FDSTF Strategic Plan.

In order to be eligible to receive funding, applicants for FDSTF project consideration must first obtain the support of a Task Force member as a project sponsor. The applicant must submit a FDSTF Project Application along with a budget and plan of action. When scheduled, the applicant will present the project proposal to the full Task Force for review and consideration. Approval requires a majority vote of eligible FDSTF members. State legislators are not eligible to vote on such matters. This entire process is posted on the Task Force web site.

In May, the Task Force considered 6 applications for FY 2015 funding. After reviewing written applications and receiving in-person presentations from applicants, the Task Force decided to fund 4 projects for FY 2016. The projects totaled \$736,310. The grant recipients included Bay County, Santa Rosa County, Clay County and the Tampa Bay Defense Alliance. The FY 2016 grant announcement is included at Tab E.

The Florida Defense Support Task Force (FDSTF) was created in 2011 by Florida Statute 288.987 with a defined mission:

- To support the state's position in research and development related to or arising out of military missions and contracting.
- To improve the state's military friendly environment for service members, military dependents, military retirees and businesses that bring military and base-related jobs to the state.

Vision

The Florida Defense Support Task Force will be an aggressive and effective advocate to promote, preserve, protect and expand military missions and installations across the state of Florida.

Guiding Principles

- Champion Florida as the "Most Military-Friendly State" in the nation.
- Advocate for favorable resolution of military and defense issues from a statewide perspective and unify Florida's defense communities with one voice. Provide a plan for active and effective advocacy for military and homeland defense missions and facilities located in Florida including the United States Coast Guard.
- Promote Florida's military friendly atmosphere and optimum training environment and locations as the best and most cost-effective alternative for the Department of Defense.
- Coordinate a unified consistent message of Task Force members, executive and legislative branches of Florida government, congressional members and defense communities.
- Maintain a proactive posture, assisting the Department of Defense in its effort to find efficiencies and develop synergies in the face of necessary military mission consolidations or realignment actions.
- Help Florida communities become better prepared to present the Department of Defense with viable options and opportunities where realignment or consolidation actions are being considered.
- Identify, prioritize and address all current or potential base and range encroachment issues including, but not limited to airspace, environmental, energy, frequency spectrum and land use compatibility.
- Foster mutually beneficial communication and strengthen relationships between the state of Florida, installation leadership and community leaders.
- Enhance the Florida Congressional Delegation efforts in working defense and security issues at the federal level.
- Focus on advocacy efforts to obtain results which are mutually beneficial to Florida and the defense community.
- Identify the military value of Florida installations using core Department of Defense criteria and the results of previous data calls.

- Assist the Governor’s office and state agencies in addressing and supporting the needs of Florida’s installations identified as the result of base commander’s meetings.
- Champion and continue legacy of Florida’s warmth, embrace and respect for military family quality of life.

General Definitions

Defense is a multi-dimensional environment defined broadly to include the active service members, National Guard and Reserve forces, military dependents, military retirees and military-related businesses in the state of Florida.

Military installations include all bases, ranges and airspace within Florida and in waters adjacent to Florida.

Time Frame Definitions

Short term – The period in which the military services budget-driven realignments occur outside of a formal Base Realignment and Closure (BRAC) process.

Florida Defense Support Task Force: Successes 2012 - 2015

December 2, 2015

Created under Florida Statute 288.987, the thirteen-member Florida Defense Support Task Force (FDSTF) has the mission to make recommendations to preserve and protect military installations, support the state's position in research and development related to or arising out of military missions and contracting, and improve the state's military-friendly environment for service members, military dependents, military retirees, and businesses that bring military and base-related jobs to the state.

Successes 2012 – 2015:

1. Organized as a Task Force, conducted monthly meetings and visited military bases around the state.
2. Developed and implemented a long range strategic plan to guide Task Force actions to protect, preserve and enhance Florida's military installations. This plan updated annually.
3. Completed comprehensive evaluation of the military value of all military installations. The Spectrum Group conducted this assessment and simultaneously conducted risk assessment of all bases in regard to possible realignment or closure.
4. Established a web site to disseminate military and defense-related information and established a system of weekly updates to keep members current on events and activities impacting Florida's military installations.
5. Contracted with The Principi Group to advocate in Washington, DC on behalf of Florida's military installations in conjunction with the Florida Congressional delegation and the Governor's Washington office. The Principi Group has been effective in the Pentagon and on Capitol Hill in gaining visibility on Florida's military and defense issues as well as providing tremendous assistance to Florida's local defense communities during their annual visits to Washington.
6. The Principi Group continues to conduct a series of follow up visits to Florida's military installations to update the original Spectrum Group assessment and remain current on issues faced by the installation commanders. Additionally, The Principi Group met with local defense leaders to receive community input on issues impacting the installations.

7. Published 2015 “Florida Defense Industry Economic Impact Analysis” and the resultant 2015 Florida Defense Factbook and other marketing materials to educate and raise awareness of the economic impact of the military and defense industry to Florida’s economy.
8. Published the 2015 Florida Military Friendly Guide, a handbook of state programs and laws that benefit military members and their families stationed in Florida.
9. Awarded 36 Task Force grants totaling \$8.05 million to local defense communities across the state to enhance the military value of Florida bases.
10. Supported military-friendly state legislation including:
 - Establishing a funded program to acquire non-conservation buffering lands adjacent to military installations.
 - Extending voter registration for deployed military members.
 - Providing continued Florida participation in the Interstate Compact for Military Children.
 - Providing write in absentee ballots for all state and local elections for deployed service members.
 - Allowing military spouses/dependents to keep their state of residence driver licenses while stationed in Florida.
 - Allowing automatic extensions for military spouse/dependent driver licenses while stationed outside of Florida.
 - Providing a waiver of minimum age requirements for service members at hotels.
 - Allowing out-of-state college tuition rates for the spouse and children of service members.
 - Allowing certain persons with disabilities to receive Medicaid home and community-based services if parent or legal guardian is an active duty military service member.
11. The Florida Defense Support Task Force has received tremendous support and significant funding from the Governor and Legislature since its inception in 2011.

Florida Economic Development Program Evaluations – Year 3

REPORT NO. 15-11

November 2015

Office of Program Policy Analysis and Government Accountability

Summary

With numerous major military installations, Florida’s defense activities and spending are significant sources of employment and revenues for state and local governments. To protect these assets and help ensure that the bases and host communities are in a competitive position during periods of downsizing and realignment, the Legislature established a variety of military and defense programs.

The primary goals of Florida’s military and defense programs are to ensure that the state’s installations remain open and attract new military missions and to limit development around bases that could impact military operations. These goals are accomplished through grant programs, federal and state-level advocacy efforts, and non-conservation land purchases.

- During the three-year review period, military and defense grant programs awarded \$11.6 million in funding to support 78 projects; just over \$3 million of the funds were expended during this time.
- Advocacy for Florida’s military bases and defense communities is provided via professional services contracts, including a \$1.8 million contract with the Principi Group to develop a communication and coordination strategy to preserve and grow the state’s military missions and installations and a \$1.6 million contract with the Spectrum Group to conduct a detailed analysis of the state’s military installations.
- The Legislature appropriated \$7.5 million for the acquisition of three properties to serve as a buffer for military installations. These land purchases are pending due to negotiation delays.

OPPAGA found that grant recipients and other stakeholders were very satisfied with the grant programs’ effectiveness in meeting installation needs. All of the grant recipients that OPPAGA interviewed reported that the grants had a positive or very positive impact on their efforts to protect their installations, and recipients stated that without grant funds projects would have been terminated or greatly reduced.

In addition, national studies and stakeholder feedback demonstrate that Florida’s military and defense support efforts exceed those of other states with a large military presence. Florida has implemented 9 of 10 best practices identified as vital to support states’ military and defense programs. Considering these best practices, Florida’s overall military and defense efforts equal or exceed those of other states with a military presence, such as California, Georgia, North Carolina, Texas, Virginia, and Washington.
