Amy L. Gowder

Vice President and General Manager,
Lockheed Martin Rotary and Mission Systems (RMS)
Training and Logistics Solutions

Amy L. Gowder is Vice President and General Manager for Lockheed Martin's Training and Logistics Solutions line of business within the Rotary and Mission Systems (RMS) business area. In this capacity, she is responsible for the execution and strategic growth of Lockheed Martin's mission readiness and sustainment programs with more than 5,400 employees around the globe.

Prior to joining RMS, Ms. Gowder served as Vice President of Supply Chain Management for Lockheed Martin Aeronautics Company headquartered in Fort Worth, Texas. In this role, Ms. Gowder was responsible for developing and implementing acquisition policies and strategies for all Lockheed Martin Aeronautics Lines of Business and oversaw a procurement budget of approximately $10B annually.

She previously served as President & General Manager of Lockheed Martin's Commercial Engine Solutions, with locations in San Antonio, Texas and Montreal, Canada. In this role, Ms. Gowder was responsible for the maintenance, repair, and overhaul of eleven engine product lines that powered more than 15 military and commercial aircraft.

Prior to that, Ms. Gowder held many leadership roles within Lockheed Martin and has been responsible for multiple special projects in Supply Chain, Sustainment, Finance, and Operations. She was the Director of Affordability for Lockheed Martin Aeronautics and was responsible for all aspects of implementing overhead, product, process, and material cost efficiency.

Ms. Gowder is a proven leader and in 2012, she was named a top 40 under 40 aviation executive by *Aviation Week*. In 2015, she was inducted into the San Antonio Women's Hall of Fame. In 2016, she was appointed to the Aerospace and Aviation Advisory Committee for the State of Texas.

Ms. Gowder is a prestigious graduate of the Massachusetts Institute of Technology Sloan Fellows Program with a Masters of Business Administration and holds a Bachelor's of Science degree in Bioengineering from Arizona State University.
