

State Representative Jay Trumbull

Jay Trumbull is a member of the Florida House of Representatives. Representative Trumbull is serving in his second term, representing District 6, which covers parts of Bay County. He is only the third Republican ever elected to the Florida House from Bay County.

As a member of the Florida House, Trumbull serves on six committees: As Chairman of the Triumph Gulf Coast Select Committee, As Vice-Chairman of the Careers & Competition Subcommittee, on the Commerce Committee and the Health Innovation, Post-Secondary Education Subcommittee and Transportation & Tourism Appropriations Subcommittee. In his first session, he sponsored five pieces of legislation which were passed into law, including a bill that would reduce the property tax burden for military housing.

Representative Trumbull is a native of Bay County, and outside of his legislative service works at Culligan Water, where he is now the fourth generation of his family to work at the family-owned business started over 60 years ago by his great grandfather, and now run by his father. He is also a Co-owner of Southern Air Experts, a small business located in his hometown of Panama City, Fl.

Representative Trumbull is a graduate of Auburn University where he earned a Bachelors of Science degree in Entrepreneurship and Family Business. A combination of his family's commitment to civic involvement and his concern for the growing impact of government regulation impacting local businesses led to his decision to seek public office.

Jay is married to his high school sweetheart Brittany Fishel Trumbull, who is the Vice President of an engineering consultant firm, Anchor CEI Engineering & Inspection. They have been married for four years and have one child together. When he isn't working, Trumbull is an avid outdoorsman.
