---

Expo Seguridad México is the leading security event in Latin America for the security and safety industry. This year’s show is expected to exceed 2018 figures, with more than 16,000 attendees, 415 exhibitors, and 12,000 square feet of exhibition area.

The security market is a dynamic sector in Mexico. With an annual average growth up to 10%, it offers several business opportunities for almost all market segments. These key segments include national, private, residential, and perimeter security; industrial security and safety; electronic security solutions; security services (personal protection, IDs); law enforcement equipment; and security-related solutions and services.

In partnership with our office in Mexico City, Enterprise Florida (EFI) can provide assistance to Florida exhibitors such as logistics support, sector briefings, arranging meetings with potential distributors, and translation services.
