JOIN SECRETARY OF COMMERCE BILL JOHNSON
ON AN EXPORT SALES MISSION TO
KOREA & TAIWAN | APRIL 15 – 23, 2016

Organized by Enterprise Florida, the official economic development organization for the State of Florida.
Dear International Business Leader:

South Korea and Taiwan, strong and growing Asian economies, are highly attractive export markets for U.S. companies.

Over the past several decades, South Korea has achieved a remarkably high level of economic growth and is now the United States’ sixth largest goods trading partner with a trillion-dollar economy. The landmark Korea-US Free Trade Agreement (KORUS FTA), entered into force in 2012, underscores the depth of bilateral trade ties. Florida companies will find niche markets for their goods and services across virtually every sector.

The United States is Taiwan’s third largest trading partner, accounting for more than 10 percent of its total trade. The East Asian island is a sophisticated market for high-quality, differentiated products and commodity items. Taiwan’s high-tech sector relies heavily on technology licenses and imports of specialty components from the United States.

The Export Sales Mission to Seoul, Korea and Taipei, Taiwan will take place April 15 - 23, 2016. Florida companies are invited to join the mission and participate in the Gold Key program. This program offers an excellent way to meet with potential business partners and build relationship in both markets.

I encourage you to join me on this important mission as we continue the work of creating jobs in Florida through the promotion of international trade.

Sincerely,

Bill Johnson
Florida Secretary of Commerce
President and CEO, Enterprise Florida, Inc.

OPPORTUNITIES FOR FLORIDA COMPANIES IN KOREA

- Over the past several decades, South Korea has achieved a remarkably high level of economic growth and is now the United States’ sixth-largest goods trading partner with a trillion-dollar economy.
- Major U.S. firms have long been leading investors in South Korea, while South Korea’s top firms have made significant investments in the United States. There are large-scale flows of manufactured goods, agricultural products, services, and technology between the two countries.
- The landmark Korea-U.S. Free Trade Agreement (KORUS FTA) entered into force on March 15, 2012, underscores the depth of bilateral trade ties. The agreement is expected to boost exports by billions of dollars annually for both sides and create new export-related jobs in both South Korea and the United States.
- U.S. companies will find excellent niche markets for their goods and services across virtually every sector. Ongoing changes in Korean lifestyle and dietary culture, along with remarkable developments in the socio-economic environment, have resulted in significantly expanded demand for imported products.
- As a market for American products, Korea shares several characteristics with Japan and Taiwan, including similar levels of disposable income, consumption patterns, regulatory structures, and a common fascination with the “American Lifestyle”.

OPPORTUNITIES FOR FLORIDA COMPANIES IN TAIWAN

• With a population of 23 million, Taiwan is a thriving democracy, vibrant market economy, and a highly attractive export market, especially for U.S. firms.
• In 2014, Taiwan was ranked as the United States’ 10th largest trading partner in goods, placing it ahead of markets such as India and Saudi Arabia. It was also the 14th largest U.S. export market overall.
• In 2012, Taiwan was the sixth largest source of foreign students pursuing higher education in the United States.
• Taiwan was the world’s fourth-largest holder of foreign exchange reserves in 2012, with over US $403 billion.
• The United States is Taiwan’s third-largest trading partner, importing 9.9% of Taiwan’s exports while U.S. exports comprise 8.7% of Taiwan’s imports.
• Taiwan is a sophisticated consumer market in which Taiwan consumers are plugged into global consumer trends. American products are well represented in the market. Taiwan is a good target market for high-quality, differentiated products and commodity items.
• With few natural resources and in order for Taiwan to meet its energy needs, coal, oil and gas are increasingly presenting good export opportunities for American companies.
• Taiwan’s high-tech sector relies heavily on technology licenses and imports of specialty components from the United States.
