

SOUTH AMERICA'S AVIATION MARKET IS TAKING OFF

FIDAE, Latin & South America's premiere aerospace and defense exhibition, will once again open its hanger doors on April 5, 2022. The show will continue to build upon its well-earned reputation of being **the place** to meet regional military, governmental, and private industry delegations. The last edition of FIDAE to occur in 2018 hosted more than 530 exhibitors from 46 nations whose products and services, including 138 aircraft, attracted more than 31,000 trade visitors during 4 trade days. Organizers anticipate a strong exhibitor and visitor presence in 2022, all looking for extra insight and access to decision-makers and buyers in this dynamic and influential marketplace.
